

RAILWAY FORUM KRAKOW 2026

5-6 November 2026 | Qubus Hotel, Krakow, Poland

Resilience meets Technology New Challenges for European Railways

Digitalisation Automation and AI in Railway Infrastructure and Rolling Stock

Organiser: UEEIV - Union of European Railway Engineer Associations

Local Host: SITK – Railway Division

Practical solutions. European exchange. Valuable connections.

Cyberattacks, sabotage, geopolitical uncertainty and climate-related disruption are testing European railways. Meet engineers, researchers and industry experts to explore how solid engineering, digital technology and AI and strengthen resilience.

ENGINEERING & TECHNOLOGY

Infrastructure and track systems; signalling and automation; rolling stock; AI-based monitoring and maintenance.

RESILIENCE & SECURITY

Cybersecurity across railway systems; sabotage protection; strategic resilience planning; climate resilience.

Young engineers take the stage

Day 1, directly after the keynote: the next generation brings fresh ideas and new perspectives to the European railway community. The Forum brings together academia, practitioners, railway enthusiasts and the next generation of engineers.

PROGRAMME AT A GLANCE

Date	Event	Venue
4 Nov evening	Pre-conference evening	Krakow University of Technology
5 Nov	Full day conference	Qubus Hotel
5 Nov evening	Networking Dinner	Venue to be confirmed
6 Nov	Full day conference	Qubus Hotel
7 Nov morning	Optional excursion	Details online
